

REGISTRATION OPEN FOR

CNR teaching course for PhD students

Consiglio Nazionale  
delle Ricerche

# Biosensors and Green Immobilization Techniques

Duration: 10 hours

Type: **online**

At the end: Visit to the  
CNR - ISM laboratories

Dates:

**10-13-17-20-June** from 10:00 to 12:00

**24 June** Visit to the laboratories of  
the CNR-ISM Research Area of Rome 1

REGISTRATION

*The course aims to introduce and understand the operating principles of a biosensor, the methodologies for its development, its fields of application, and "green" production strategies for a more eco-friendly manufacturing of the device. The course also includes seminars with experts in the field and a day visit to **DepEST lab**, at CNR-ISM Research Area in Rome 1, Montelibretti (RM).*
